

SCI Assessed

Advanced Bolting Solutions Ltd

Molabolt Peg Anchor

Design Resistances

The SCI has assessed the design resistances for Molabolt Peg Anchors in carbon steel and stainless steel. The fixings have been subject to a comprehensive test programme and design resistances determined in accordance with Eurocodes.

The full details of the SCI assessment and the associated data are documented in SCI Report RT1646 (March 2015).

Product ID: 1502
End Date: 22nd April 2015
